

KINGMAKERS

WE MAKE MARKETS MOVE.

Strategic Introductions · Private Commercial
Opportunities · Institutional Connections

WHERE ACCESS

BECOMES OPPORTUNITY.

KINGMAKERS operates within private commercial networks where relationships, timing and decision-making shape outcomes.

We work with CEOs, Family Offices, Institutional Investors, Principals, Business Leaders and Strategic Partners around selected commercial

opportunities and relevant counterparties.

Our role is straightforward:

Qualify.

Identify.

Introduce.

Connect.

Advance.

We do not operate on volume. We prioritize qualified parties, relevant opportunities and genuine commercial intent.

THE NETWORK

BUILT AROUND DECISION-MAKERS.

The strength of a network is not measured by its size.

It is measured by relevance, trust and access to the people who can make decisions.

CEOs & BUSINESS LEADERS

Connecting qualified executives and business leaders where direct communication can create meaningful commercial opportunities and strategic relationships.

FAMILY OFFICES

Introducing qualified parties to selected private commercial opportunities through trusted relationships and established networks.

INSTITUTIONAL INVESTORS

Connecting qualified institutional representatives with relevant commercial counterparties and opportunities requiring direct engagement.

PRINCIPALS & OWNERS

Introducing qualified parties to the individuals behind significant businesses, commercial mandates and opportunities.

PRIVATE COMMERCIAL OPPORTUNITIES

NOT EVERYTHING OF VALUE REACHES THE OPEN MARKET.

Some opportunities move through trust,

relationships, timing and direct dialogue rather than conventional public channels.

KINGMAKERS works within private commercial networks to identify relevant opportunities and bring qualified parties together where there is a genuine basis for engagement.

We remain selective about what enters the network, who receives access and when an introduction makes commercial sense.

Private by nature.

Selective by design.

Discreet by standard.

For applicable opportunities, access to confidential commercial information may be subject to appropriate qualification and Proof of Funds (POF).

FROM CONNECTION

TO OUTCOME.

A valuable introduction is not measured by the meeting itself.

It is measured by what happens after the connection is made.

01 — ASSESS

Understand the opportunity, requirements and relevant counterparties.

02 — CONNECT

Create the right introduction with clarity and purpose.

03 — ENGAGE

Enable direct communication between qualified parties.

04 — ADVANCE

Move the opportunity toward a defined commercial outcome.

Right People.

Right Opportunity.

Right Timing.

Right Outcome.

OUR STANDARD

PRECISION OVER VOLUME.

DISCRETION

Sensitive commercial information and private communications are handled with a high degree of confidentiality.

RELEVANCE

Every introduction has a clear commercial purpose.

ACCESS

We prioritize meaningful relationships and qualified counterparties over mass-market exposure.

PROFESSIONALISM

Clear communication, disciplined engagement and respect for the interests of every party.

FOUNDER & CEO

Ouahid Kachkachi leads KINGMAKERS with a focus on commercial introductions, private opportunities and strategic relationships.

His approach is built around identifying the right counterparties, understanding the commercial objective and creating the conditions for direct, productive engagement.

Building relationships that create access,

alignment and momentum.

THE RIGHT CONNECTION.

THE RIGHT OPPORTUNITY.

THE RIGHT OUTCOME.
